SECTION 4. First aid measure	9S
4.1 Description of first aid meas	ures
General advice	 Move out of dangerous area. Consult a physician. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended.
lf inhaled	 Move to fresh air. If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.
In case of skin contact	 Immediate medical treatment is necessary as untreated wounds from corrosion of the skin heal slowly and with difficulty. If on skin, rinse well with water. If on clothes, remove clothes.
In case of eye contact	 Remove contact lenses. Immediately flush eyes for at least 15 minutes. Get medical attention.
If swallowed	 Keep respiratory tract clear. Do NOT induce vomiting. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. Take victim immediately to hospital.
4.2 Most important symptoms a	nd effects, both acute and delayed
Symptoms Risks	 no data available Causes serious eye damage. Causes severe burns.
4.3 Indication of any immediate	medical attention and special treatment needed
Treatment	: no data available
SECTION 5. Firefighting meas	sures
5.1 Extinguishing media	
Suitable extinguishing media	: Dry chemical
Administrative information: Report Information: SDS_IN/EN/GHS_SD Sales & Distribution Information: MU02/FL Shipping Order Information: 28,864,937/2	/XX10/01

		Alcohol-resistant foam Carbon dioxide (CO2) Water spray			
Unsuitable extinguishing media	:	no data available			
5.2 Special hazards arising from	the	substance or mixture			
Specific hazards during firefighting	:	Do not allow run-off from fire fighting to enter drains or water courses.			
5.3 Advice for firefighters					
Special protective equipment for firefighters	:	Wear self-contained breathing apparatus for firefighting if necessary.			
Further information	:	: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.			
SECTION 6. Accidental release	e n	neasures			
6.1 Personal precautions, protect	tive	equipment and emergency p	rocedures		
Personal precautions	:	Use personal protective equipr	nent.		
6.2 Environmental precautions					
Environmental precautions	:	Prevent product from entering drains. If the product contaminates rivers and lakes or drains inform respective authorities.			
6.3 Methods and materials for co	nta	inment and cleaning up			
Methods for cleaning up	:	Soak up with inert absorbent m acid binder, universal binder, s Keep in suitable, closed contain	awdust).

SECTION 8. Exposure controls/personal protection

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Exposure assessment: Exposures are dependent on the product being handled, the potential for chemical release, and any resulting airborne concentrations or dermal contact. Since product handling and release scenarios vary, and no two workplaces are exactly alike, it is recommended that the potential for exposure be assessed prior to the prod-uct's use or introduction. Exposure assessments should be performed by an occupational hygienist, industrial hygienist, or other qualified occupational or environmental health professional. An exposure assessment should be conducted to determine the efficacy of any ventilation and the need for additional PPE. The PPE indicated below are recommendations for worst-case scenario exposures. An exposure assessment will identify more applicable measures to be implemented. EN and ANSI standards are mentioned in the following recommendations, consult equivalent local

Revision Date 17 JUL 2023

Print Date 16 DEC 2023

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Information displayed in section 3 (Composition/information on ingredients) is additional information to understand the hazards of the product and ensure safe handling, storage and transportation. This information, including CAS numbers, is not meant to be used for registration, notification or any other purposes. Any additional information and documentation needed may be provided by Givaudan.
