

# ORGANIC 100% BLUE AGAVE POWDER SYRUP

## SECTION 1: IDENTIFICATION OF THE SUBSTANCE

Product name	Organic 100% Blue Agave Powder Syrup
Common name	Blue Agave Powder Syrup
Recommended use	Suitable as a sweetener and / or raw material in food products.
Name of the company	Inulina y Miel de Agave S.A de C.V.
Address	Carretera Tepatitlán- Arandas Km. 4.5, Capilla de Guadalupe, Jalisco, México.
Phone number	+52 (378) 701-0112

## SECTION 2: RISK IDENTIFICATION:

Physical risk	None
Health risk	People with Diabetes Mellitus should not be consumed without medical supervision.

## SECTION 3: COMPONENTS / COMPONENTS INFORMATION

Substance chemical identity	Agave syrup of blue agave tequilana weber powder.
Common name	Agave Syrup powder
CAS registry number	N/A

## SECTION 4: FIRST AID

Contact with eyes	Rinse immediately with clean water for 20 to 30 min. Retract the eyelid continuously. Get urgent medical attention in case of pain when the blinking, tearing or redness persists.
Inhalation	Avoid inhalation of dust particles. There is no known risk.

## SECTION 5: FIRE FIGHTING MEASURES

Precautions	Do not expose the product to temperatures higher than 300°F
Fire extinguishing mean	Chemical powders, CO2 preferably.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

In case of spills	Do not step on the product, you may slip. Flush with water the area and dry the surface once clean.
-------------------	---

## SECTION 7: HANDLING & STORANGE

Indications	Handle with precaution to avoid spills, store in dry places at room temperature and avoid overheating and humidity exposure.
-------------	--

## SECTION 8: EXPOSURE MEASURES / PERSONAL PROTECTION

Respiratory protection	Not necessary under normal use & handling. Use facemask in case of air dispersion.
Eye protection	Use protective eyewear in case of spills to avoid splashes.

INULINA Y MIEL DE AGAVE S.A. de C.V.

Hygiene requirements Handle the product under GMP's or established food regulations

#### SECTION 9: PHYSICOCHEMICAL, CHROMATOGRAPHIC & MICROBIOLOGICAL CHARACTERISTICS

Appearance	Fine powder
Odor	Pleasantly sweet, characteristic of agave
Flavor	Pleasantly sweet, characteristic of agave
Color	White, slightly beige
pH	4.0 – 6.0
Moisture (%)	5.0 % Max
Glucose (%)	1.0 % Max
Fructose (%)	95.0 % Min
Saccharose (%)	0.5 % Max
Inulin / Fructooligosaccharides	0.5 % Max
Mannitol	0.5 % Max
Other sugars	0.13 % Max
Solubility (g/L a 25°C)	≥ 500
Density (g/cm <sup>3</sup> )	≥ 0.70
Total Bacterial Account	< 1000 UFC/g Máx.
Fungi	< 10 UFC/g
Yeasts	< 10 UFC/g
Total Coliforms	Absent
Salmonella sp.	Absent in 25g
Escherichia coli	Absent

#### SECTION 10: STABILITY & REACTIVITY

Stability	Stable
Hazard reactions	Hazardous Polymerization Will Not Occur
Hazardous breakdown by component	None
Incompatibility	Keep away from sulfuric acid, phosphoric acid and other dehydrating agents, acetic anhydride, agents with strong oxidation such as peroxide, oxygen, nitric acid, perchloric acid or chromic acid.

#### SECTION 11: TOXICOLOGICAL INFORMATION

Product Nontoxic

#### SECTION 12: ECOTOXICOLOGICAL INFORMATION

Product Nontoxic

#### SECTION 13: INFORMATION CONCERNING WASTE DISPOSAL

Waste disposal Check local regulations for food waste disposal.

#### SECTION 14: INFORMATION CONCERNING TRANSPORT

Transport Handle with care, avoid spills ship only in dry vehicles an keep out of direct sunlight, room temperature and avoid exposure to moisture and the overheating

Transport risk None

## SECTION 15: REGULATORY INFORMATION

Specific provisions None

## SECTION 16: OTHER INFORMATION

The information is considered correct, but it is not exhaustive and will only be used as guidance, which is based on current knowledge of the substance.
