

## MATERIAL SAFETY DATA SHEET

### Section 1: Product Information

Product Description: ASEPTIC ACIDIFIED BANANA PUREE

Species/Variety: *Musa acuminata*

### Section 2: Hazard Identification

Acidified Banana Puree is not considered hazardous.

### Section 3: Composition/Information on Ingredients

| Chemical Name                                     | CAS Number | Percentage    |
|---|------------|---------------|
| Banana  | N/a        | 99.85 – 99.9% |
| Citric Acid ( <i>for acidified Banana Puree</i> ) | 77-92-9    | 0.10 – 0.15%  |

### Section 4: First Aid Measures

- First aid: No specific requirements
- Eye contact: Wash out with water
- Skin contact: Does not present a problem
- Inhalation: Does not present a problem

### Section 5: Fire-fighting Measures

Not applicable.

### Section 6: Accidental Release Measures

Not applicable.

### Section 7: Handling and Storage

Store in an ambient temperature at 32°C. Controlled ambient temperature at 15°C to 24°C. Chilled at 0°C to 4°C.

### Section 8: Exposure Controls/Personal Protection

Not applicable.

### Section 9: Physical and Chemical Properties

- Physical state: Creamy liquid
- Color: Light beige to beige
- Odor: Mature banana odor; no off odors
- Taste: Typical soft, palatable texture and smooth homogenous puree

**Section 10: Stability and Reactivity**

Not applicable.

**Section 11: Toxicological Information**

Acidified Banana Puree is not considered as a toxic substance.

**Section 12: Ecological Information**

No ecological hazards are involved and associated.

**Section 13: Disposal Considerations**

Not required, unless required by local regulations.

**Section 14: Transportation Information**

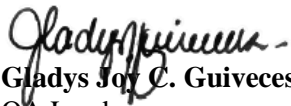

Not applicable.

**Section 15: Regulatory Information**

Not applicable under any known regulation

**Section 16: Other Information**

This product does not contain any hazardous chemical substances. The product is made from ripe banana fruit material and processed through minimal process (mashing and aseptic packing).
