

MATERIAL SAFETY DATA SHEET

Section 1: Product Information

Product Description: ASEPTIC NON-ACIDIFIED BANANA PUREE

Species/Variety: *Musa acuminata*

Section 2: Hazard Identification

Non-acidified Banana Puree is not considered hazardous.

Section 3: Composition/Information on Ingredients

Chemical Name	CAS Number	Percentage
Banana	N/a	100%

Section 4: First Aid Measures

- First aid: No specific requirements
- Eye contact: Wash out with water
- Skin contact: Does not present a problem
- Inhalation: Does not present a problem

Section 5: Fire-fighting Measures

Not applicable.

Section 6: Accidental Release Measures

Not applicable.

Section 7: Handling and Storage

Store in an ambient temperature at 32°C. Controlled ambient temperature at 15°C to 24°C. Chilled at 0°C to 4°C.

Section 8: Exposure Controls/Personal Protection

Not applicable.

Section 9: Physical and Chemical Properties

- Physical state: Creamy liquid
- Color: Creamy beige to light brown
- Odor: Mature banana odor; no off odors
- Taste: Typical soft, palatable texture and smooth homogenous puree

Section 10: Stability and Reactivity

Not applicable.

Section 11: Toxicological Information

Non-acidified Banana Puree is not considered as a toxic substance.

Section 12: Ecological Information

No ecological hazards are involved and associated.

Section 13: Disposal Considerations

Not required, unless required by local regulations.

Section 14: Transportation Information

Not applicable.

Section 15: Regulatory Information

Not applicable under any known regulation

Section 16: Other Information

This product does not contain any hazardous chemical substances. The product is made from ripe banana fruit material and processed through minimal process (mashing and aseptic packing).
